

Can you HELP GIRLS CODE?

DELIVER THE CODING SESSIONS AT PACE

Assistance is needed in the following areas:

- [INSTRUCTORS/TEACHERS](#)
Can you offer an hour a week, to offer girls coding sessions?
- [CURRICULUM](#)
Can you design a comprehensive curriculum for beginners? In digital languages, such as HTML, CSS, PHP, JavaScript ETC?
- [DASHBOARD INTEGRATION](#)
Our current dashboard is basic and still needs editing to incorporate more data.
- [FORUM INTEGRATION](#)
All set-up but needs knowledge-based overview.
- [PROJECT/EVENT MANAGEMENT](#)
Can you facilitate the pilot and coordinate events?

CODING SOLUTIONS FOR DISADVANTAGED GIRLS

At the current global uncertainties, if you can imagine it, then you can achieve it. Do you know that nothing is hidden under the sun? Almost everything is data-driven, and we all should to learn basic coding, the fun way.

Our basic sessions will provide a gateway into the world of digital coding and connecting young people and communities to the technology industry. They will practice and engage in a range of inspirational and high-quality coding sessions, both basic and intermediate.

I am running a pilot coding cohort for girls in inner London borough. I would be interested to see how many hours you can spare a week. The pilot is for disadvantaged girls. We are not charging them for the sessions. This means the full amount is postponed; although, a nominal fee is levied at enrollment. This amount covers part of the administration. No profit is made at this point because it is currently on offer at 95% discount. Planned launch - 28th September 2020

Can you help, by giving them the opportunity to code?
